Jakarta, Indonesia

I am a 6th-semester Computer Science student at Universitas Negeri Jakarta with a GPA of 3.67, passionate about UX/UI design and frontend development. I have developed strong technical skills, particularly in HTML, CSS, JavaScript, and XML, and have experience with C, Python, and Kotlin. I have practical experience in frontend development, demonstrated by my work on "Bicara AI," an AI-based application, where I contributed significantly to the user interface and experience. My goal is to leverage my skills and knowledge to create innovative and user-friendly applications.
